**ELMER E. GOVE      BURLINGTON, VERMONT**

## PLEASE READ CAREFULLY

Do not change collections or special sets. The collections are made up as they are for definite reasons and we cannot change them. Any of these collections or specials are very good value.

Do not split quantities as listed. Where a variety is listed at 2 for 15 cents or 4 for 15 cents do not order 1 or 2 at a lower price. There is no profit in any items of less than ten cents and very little at that price. **No single item accepted for less than ten cents.**

**EXTRAS ON CASH ORDERS.** On cash orders of \$2.00 to \$5.00 you can select 10% extra in bulbs of your own choosing. From \$5.00 to \$25.00 select 15%; \$25.00 to \$50.00 select 20% and above \$50.00 select 25%. **These Discounts do not Apply to Collections, Special Offers or Wholesale prices.**

**TO MAKE OUT YOUR ORDER** put everything down on the order blank, just as listed in the price list. Add it up then figure out any special discounts or add on the extra bulbs of your choosing. It is all very simple but some people seem to have a lot of trouble in making out an order.

Also on all orders of \$15.00 or more I will put in a bulb of **Royal York**. (See below).

On orders of \$30.00 or more I will put in a free bulb of **The Mogul**. (See below.)

The above discounts and extras are all for cash orders. The earlier the orders are received and the larger they are the more generous we will be with our extras. If you cannot spare all the cash now send 25% and the balance later and we will see that you are satisfied. **But the above extras are only for cash before shipment.**

On cash orders of \$12.00 or more, except collections, I will give a copy of the "Gladiolus Book" by Rockwell if you ask for it and if you have not already had one.

Packages of bulblets run from twenty-five to fifty or more. We give very good value.

You can have 3 bulbs at the 10 rate; 25 at the 100 rate. But no single items for less than 10 cents.

**I GUARANTEE SATISFACTION** and I mean just that. If at any time, either after receiving the bulbs or after blooming, you have cause for complaint just write me about it and I will do my utmost to make things right. This is the only basis on which anyone can hope to conduct a business that will be permanently successful.

At these prices all bulbs, except the wholesale offers, are prepaid anywhere in the United States and Canada and all countries in the Postal Union.

**SPECIAL QUOTATIONS.** Do not ask for special quotations unless you have a large order. We will not consider quoting any special prices on small orders. I publish this price list to give people the prices and do not consider it honest to give one person a lower price than another. **However on a very large order we may be able to make lower prices on certain items to Growers, Dealers or Jobbers.**

**REMEMBER** in buying bulbs price is not everything. In fact sometimes price is a minor item. Consider the quality, count, the reliability of the grower, etc. I always mean to put in enough extra count or over size to make up for any lower price that other good reliable growers might make. **Just leave it to me.**

**IF YOU WANT TO PAY TRANSPORTATION** and get extra count on your order just mention it and I will send your order collect and will see that you are more than satisfied. Just mention whether you want extra count on your order or extras in other kinds and what kinds. If you want bulbs sent by mail it is better to have them go C.O.D., then we know the postage is correct and I will give you more than enough bulbs to make it up.

**ON FAIR SIZED ORDERS, EXPRESS** is safest and best especially in the winter time; I advise express if you are situated so as to get free delivery by the express company.

**EXTRAS.** It is the practice of most growers to give extras on orders. I always put in some myself. So it would help me if you will mention whether you want extras of the same varieties that you order or in other kinds. And if you have a preference it will help me still more if you can name the varieties in which you want your extras and if you want large, medium or small bulbs or bulblets. Just give us a list of varieties from which to select your extras. We will put in what we think the order rates.

## TWO NEW PALMER VARIETIES FREE

These varieties are not for sale this year at any price. They can be secured only by sending in cash orders.

**ROYAL YORK. Sdlg. No. 28293.** Deep salmon scarlet. Very large with heavy texture. This seedling won a prize offered by the Royal York Hotel in Toronto for the best seedling at the Canadian Exhibition. Many people have wanted to buy this variety but we have held it to work up a stock. A few bulbs were sent out last year in collections to see how the public would like it and the result has been most gratifying. This variety will be sold next year at probably not less than \$4.00 each for large bulbs. **A bulb of this variety will be given FREE only with orders of not less than \$15.00.**

**MOGUL. Sdlg. No. 28422.** Immense dark salmony maroon or to me the color is more of a brownish red. A magnificent variety opening up to eight at a time and holding its size well to the end. People who have seen this in my garden this past year have thought it wonderful. It is one of my favorites. I am sure you will like it. This variety is also not for sale and next year will be listed at not less than \$5.00 for large bulbs and no bulblets will be available next year either. Through a mistake the bulblets of this variety were not planted this past season but were destroyed. For that reason my stock is limited. **A bulb of this variety will be given FREE only with a cash order of \$30.00 or more.**

The past three years I have used the varieties **The Moor, Rosex** and **Mywag** as premium bulbs. These have all proven to be top-notch varieties and I am sure that the two that I am using this year as premium bulbs will prove just as good as those I have given in the past. Get your orders in early to secure these bulbs.

“**Bill Sowden** is liked by more people who see my Glads than any other of this color—even better than Com. Koehl.  
—F. R. CATES, N. C.

“I displayed this week Bagdad 24 spikes, cut 4 and a half feet long with 8 to 10 blooms open in a local florist window—and much to my surprise there were 15 people came out and purchased this variety for next year.  
—F. R. CATES, N. C.

“Your stock performing wonderful for me here in the mountains of Pennsylvania.”

# Choice Bulbs and Bulblets at Prepaid Prices

In selecting from this list you may have 3 bulbs at the 10 rate. Also 25 of one kind and size for twice the price of 10. 25 bulblets at 100 rate.

If you want to pay express or parcel post just mention it and I will send them C.O.D. for carrying charges and will put in enough extra bulbs to much more than make it up.

"I saw this Rototox in the Champlain View Gardens catalog. I am sending for the Home Garden size as the trial was really wonderful.

I haven't had any glads for two years but this year they are fine.

Rototox is not only good for glads but I use it for pansy worms and it works wonders. It kills bugs of any kind and I wouldn't be without it."

—MRS. F. A. KING, Ore.

"Rideau and Bagdad are a knock out for us in this part of the country."

—R. R. BROWN, Penn.

"I notice that your catalog states that six inches is a large sized blossom. Well No. 26121 on the stock measures  $7\frac{1}{4}$  inches and the Winged Victory measured  $8\frac{1}{2}$  by just laying the blossom on a ruler. We are delighted with our bulbs and are already planning our next years order."

—CLARA T. CURTIS, Me.

"I could write quite a few pages telling you how people raved about your glads. I had 750 of your bulbs and had no trouble selling the blooms to friends who visited us during the blooming season.

"Mrs. T. E. Langford, I've got four, but I'd give an arm to have a hundred of. That is my idea of a beautiful glad."

—JACK MANNING, Pa.

"But the best one you ever put out I only have a few of. That is Debonair."

—JAMES E. NABB, Pa.

"I am well pleased with everything that has Palmer's name on it. Have produced fine growth and clean nice bulbs and have about one fourth of my entire plantings in Palmer's stock.

"Palmer's stock stands out prominently above all other glads for fine growth and is admired by all who see them."

—F. R. CATES, N. C.

"Escort had twelve wide open and thirteen buds to go and form could not be beat. I believe Escort is going to win for a long time."

—W. H. DOWLING.

"I certainly had great luck with the small order you sent to me last winter. The blooms were so much larger than the ones grown here and the colors far better and so we are all greatly pleased with results."

—ROBERT M. WALLACE, Texas.

"I had wonderful success with my spring planting of your bulbs. They were the finest blooms I ever had. Picardy was wonderful."

—MRS. C. M. SWANGO, Miss.

## 50 CENT SPECIALS

To get first-class flowers it is not at all necessary to plant large bulbs. In my own fields I plant almost entirely small ones and get fine bloom. Small and medium size bulbs will often give you nearly as good flowers as larger ones but will bloom later. So if you plant various sizes all at the same time your season of bloom will last over a much longer period. For that reason I have selected some varieties here on which I can give you an assortment of sizes which if you plant at one time early in the season will give you a long blooming season in the same variety.

I am not giving just the number of bulbs and sizes that will be in each collection as it will depend somewhat on the variety and the stock I have on hand but I will give you very good value. Just leave it to me and I guarantee you will be satisfied.

If you want some **bulblets** in place of part of the bulbs just say so, otherwise I will put in all **bulbs** in several different sizes. There will be at least one or two large ones in each set to give you the biggest bloom and then some smaller ones to follow on later in the season.

On some of these varieties even giving you big value there will not be many bulbs so you really should have two sets of each one. But one set of a kind will give you more flowers than you could get in any other way at the price. Remember it is 50 cents for an assortment of sizes of just one variety. You cannot use more than one variety in making up 50 cents worth. But you can have as many varieties as you want. Any five lots for \$2.25. Any ten lots for \$4.00 or any fifteen for \$5.75. In addition to this I will put in a bulb or two of something good for you to try out.

# DUTCH BULBS

If interested in Dutch bulbs, tulips, hyacinths and narcissus send for price list. We have a fine list of spring blooming bulbs and prepay express or P. P. east of the Mississippi River.

## **Euphorbia Corolata** (FLOWERING SPURGE)

This is a hardy perennial somewhat similar to double Baby's Breath but blossoms later. Blooms through August and September. Just the thing to go with glads or any other kind of flower. Will grow on most any kind of soil, even on dry sand, but good garden soil will make it very much better.

This is a plant that should be grown in every garden and commercial growers should plant it by the hundred. Absolutely hardy and I am sure you will like it.

In the northern states I would suggest Euphorbia be planted early in the spring. In the south or where it does not freeze hard, fall planting would be perfectly all right.

Though Euphorbia is easy to handle, and there should be no reason for it not doing well, I have had some complaints about the roots not growing. I don't know why this is because if they are planted at once and given a good watering they should all grow. I have had no trouble with them myself. But in as much as I have had some complaints I no longer guarantee the roots. I do give good strong healthy roots and if given half a chance they should grow but if they do not grow I shall not be responsible.

Prices are 4 roots for 60 cents or one dozen for \$1.25 prepaid. **We do not sell less than four as they cannot be shipped with the gladiolus bulbs. We have to make a separate shipment.**

100 roots \$6.00 f.o.b. with 50 at the 100 rate.

# ABOUT THRIP

In many parts of the country gladiolus growers have licked the thrip menace but in many places thrip is still doing a great amount of damage. I firmly believe that where it has done damage it is due to the carelessness of the growers. Each gladiolus grower should not only disinfect his own bulbs before planting but should try to get all his neighbors to do the same. It is only by cleaning up a whole neighborhood that you can be reasonably sure of not getting any thrip. By all means disinfect every single bulb that is planted no matter where it came from even if they are some that you have grown yourself and you have not noticed any thrip on them. Disinfection of bulbs before planting is the first thing to do.

In the fall after the bulbs are cured and cleaned up put them in a fairly warm place, about sixty degrees or so, for four weeks, scatter naphthalene flakes over them, about one ounce to 100 bulbs, and cover the containers with paper or some material to confine the fumes. Then in about a month shake the naphthalene off and store the bulbs away in a cool place. Chances are very strong that there will be no thrip on them then but to be on the safe side I would disinfect before planting just the same. My new catalog will give full instructions for disinfecting and an instruction sheet will go with all orders of bulbs.

As soon as the plants are just a few inches high keep a watch out for thrip. They are a very small black insect about one-sixteenth of an inch long and about the size of a pencil mark. At the first sign of them begin to spray. There are various sprays on the market, commercial sprays and the Paris Green, molasses and water spray. Rototox has given good satisfaction in spraying in many places this past season. Another spray that has evidently done good work is Magnesium Arsenate, brown sugar and water. Four pounds of the Arsenate, sixty-six pounds of brown sugar and one hundred gallons of water or at that same rate.

I firmly believe that by proper treatment of bulbs, disinfecting, spraying, etc. that perfectly good gladiolus can be grown even in an infested area. Many people who have had trouble with thrip before have grown fine glads this year and say they have the pest entirely under control.

We used to think that gladiolus were impervious to all diseases and insects and that all we had to do was put them in the ground and they would bring forth a bountiful crop of bloom. It has got so now that we have got to spray for everything. We can't continue to raise good roses without spraying every few days and the same is true with dahlias. Why is it any worse to spray gladiolus? Of course they can be grown sometimes without spraying the same as roses and dahlias can be grown well sometimes with no special work, but it is safest to do things right and reap the reward.

If you have had thrip this year do not under any circumstances throw the bulbs away as they will not be harmed in any way whatever. Just treat in naphthalene, disinfect in the spring and they will be perfectly all right for another year.

## TESTIMONIALS

"Have bought 200 of your No. 2 this spring and they are as good as any No. 1 bought from other concerns."  
—C. E. DECKERT, N. Y.

"Palmer's varieties are certainly wonderful."  
—CHARLES LATHROP PACK, N. J.

"The bulblets have all come through great. Bagdad, Mrs. Langford about 75 per cent. Pelegrina 100 per cent. Spray of Gold and Emma have both bloomed and are wonderful. Emma is very striking. Bill Sowden, Phipps, Picardy, Minuet are ready to break forth."  
—H. K. TRIOL, Penn.

"The eight lots of bulblets I got from you have done very well, with I believe a 90% germination."  
—F. J. BARBER, N. C.

"This is merely to let you know how very much I have enjoyed the gladiolus.  
"We feel that we have had more enjoyment from your glads for the price than from anything else we ever planted."  
—MRS. T. E. SWEENEY, Pa.

"I had a few of your bulbs given me and I certainly want some more of them."  
—MRS. HARVEY ALLEN, N. Y.

"You are doing the American people a great service in introducing Mr. Palmer's superior strain of gladiolus. Your honest criticisms and appraisals are invaluable.

"It will interest you to know that the spike you gave us of Coquette was out of water from 11:30 to 8:00 and the next morning it was in perfect condition—a breathtaking chaste beauty."  
—REV. N. R. VAN LOON, N. J.

"I want to take this opportunity to tell you of the success I have had with the bulbs I bought from you last year. The blooms have been wonderful and I could not safely say which were the best.

"I sprayed with Rototox this year and licked the thrip. However I know of several around here who had no blooms on account of the pest."  
—H. E. BEARDMORE, Ohio.

"I would like to tell you of the success I had with a Mammoth White. It was only a medium size bulb but measured 4 ft. 2 in. high and the flower spike carried 11 open, 2 opening and 4 showing white and the four first or lower flowers were seven inches across."  
—MRS. N. B. KATHAN, Vt.

"Another great surprise, I am having several of them, is the extraordinarily beautiful color of Hercules, a new kind to me and it is different.

"Wasaga is unsurpassed for loveliness of color. And it is not so small either. Florets up to 5 1/2 inches and 6 out at a time."  
—E. W. RANKIN, Maine.

"This is just to say that the bulbs we purchased from you last winter gave us some very large and beautiful blossoms.

"Commander Koehl, Bagdad, Janet and Minuet were particularly splendid. We had many fine compliments and were glad to tell where we got the bulbs."  
—A. J. FRANKLIN, Mass.

"The 20,000 bulbs I bought from you last year did fine in Maryland and also made large bulbs here in Florida last winter."  
—C. L. TIMMONS, Florida.

"Duna is a dandy—almost as good as Wasaga and that is saying a lot."  
—BASIL L. SEAMAN, Ohio.

## Announcement of New Varieties for 1936

My new descriptive catalog will be out in early January. In this I will list and describe not only four or five new outstanding varieties from Mr. Palmer but have also bought a beautiful rose colored seedling from Mrs. Kinyon. This seedling got an Award of Merit at the National Show in South Bend. Shall also list several of Mrs. Kinyon's other varieties that are really outstanding.

Also shall introduce a new very early commercial variety from Australia.

This new catalog will be the best I have ever put out and will contain a wealth of information about gladiolus, the thrip, etc. If you do not get your copy by the middle of January drop me a line and we will send you another. Or if any of your friends are really interested in glads send us the names and we will send them a copy.
